FOREIGN ELEMENT BUYING

Bears Disposed to Be Aggressive, but Purchasing Orders Check Them.

The Temper in Stocks and Railroad Bonds Was Firm and Well Held-Local Grain Dealings and Provision Quotations.

MONEY AND STOCKS.

Long-Drawn Struggle Between London Bulls and New York Bears.

At New York, yesterday, money on cal was easy at 14@2 per cent., the last loan being made at 2, closing offered at 2. Prime mercantile paper, 3/25 per cent.

Sterling exchange was quiet but steady at \$4.86% for sixty-day bills and \$4.87% for demand.

The total sales of stocks were 230,773 shares, including the following: Atchison, 5,780; Chicago Gas, 11,530; Delaware, Lackawanna & Western, 4,300; Erie, 4,500; Hock-"ing Valley, 12,485; Louisville & Nashville, 6,561; North American, 4,300; Northern, Pacific, 2,310; Northern Pacific preferred, 28,-946; Reading, 13,010; Richmond & West Point, 3,614; St. Paul, 14,600; St. Paul & Omaha, 5,630; Union Pacific, 24,525; Wheeling & Lake Erie, 4,000.

The stock market yesterday exhibited a firmer temper in the main than during the latter part of last week, but the improvement in the temper of the dealings was element in the market as a buyer. The bears were inclined to be as aggressive as orders in the market not only checked th decline, but rallied the entire list, including the specially weak points of the last few days. The market yesterday was still narrow, but yielded only to organized pressure, while the strength of the grangers was a most encouraging feature, fairly offsetting the weakness in Hocking Valley and Sugar. The bears renewed their attacks after the London buying was over and again succeeded in making a marked impression upon Northern Pacific preferred and Hocking Valley, but the rest of the market was well held, and later a substantial rally occurred which placed all the leading stocks on a higher level, and the final changes show some material gains. The close was quiet, but steady to firm, though generally at insignificant changes for the day.

Railroad bonds were less animated and showed only slight fluctuation, though Reading convertibles are up 11/2. at 631/4. The transactions reached \$1,562,000, with no special activity in any portion.
Government and State bonds were en-

tirely neglected. Closing quotations were: Four per cent. reg117 | Louisville & Nash. 7634 | L. & New Albany... 25 | Pacific 6s of '95...109 | Missouri Pacific... 584 Atchison. 35¹4 N. J. Central. 138¹4 Adams Express. 144 Northern Pacific. 19
Alton & T. H. 36 N. Pacific pref. 55³8
Alton & T. H. pref. 145 Northwestern. 120¹4 American Express 118 Northwestern pre.14512 Ches. & Ohio..... 2412 N. Y. Central.....114 Bar Silver-At New York, 881sc per ounce

The clearings of the six associated Indianapolis banks yesterday were \$728,264.36 balances, \$42,551,86. For the corresponding date in 1891, the clearings were \$888,563.90, balances, \$154,446.28.

GRAIN AND PRODUCE.

Receipts of Corn, Owing to Bad Weather, Continue Exceedingly Light. On 'Change yesterday wheat and corn were easier; oats firm. There were inspected in eighteen cars of wheat and two of oats. No corn arrived on account of unfavorable conditions in the weather. Prices yesterday ruled as follows: Wheat-No. 2 red, 864c; No. 3 red, 834c

Corn-No. 1 white, 46c; No. 2 white, 45c; white mixed, 44c; No. 3 white, 44@45c; latter for one color; No. 2 yellow, 44½c; No. 3 yellow, 44c; No. 2 mixed, 44½c; No. S mixed, 44c; ear, 43c. Oats-No. 2 white, 34c; No. 3 white \$214c; No. 2 mixed, 3114c; rejected, 27@2.c. Hay-Timothy, choice, \$12.50; No. 1, \$12; No. 2, \$10; No. 1 prairie, \$8.75; No. 2, \$6; mixed hay, \$7.50; clover, \$8. Bran, \$12.50 per ton.

wagon wheat, 87c.

POULTRY AND OTHER PRODUCE. Owing to bad weather the supply of poultry has been light. Trade, however, has been dull and depressed. Prices are barely steady, and with better condition of roads lower prices may be looked for. Poultry-Hens, 10e P 15; young chickens, 20c P 15; turkeys, fat, choice hens, 12c P 15 and 9e for fancy young toms; ducks, 7e & lb: geese, \$4.80 for choice.

Butter-Choice country, grass butter, 10c common. 6@8c; creamery retailing from store at 25c. Cheese-New York full cream, 13@14c; skims, 5 a 7e P th. (Jobbing prices.) Feathers-Prime geese, 35c & fb; mixed

Eggs-Shippers paying 13c.

duck, 20e # fb. Beeswax-Dark, 35c; yellow, 40c (selling price); dealers pay 18/2/20c. Wool-Merchants can now afford to pay for the new clip fine merino, 16c, with one-third discount on bucks' fleeces; coarse wool, 17@18c; medium, 20c; black, burry, cotts, choffy and broken, 15@17c.

Hides Tallow, Etc. Hides-Hide market dull and declining. No. 1 green hides, 312c; No. 2 green hides, 24c, No. 1 G. S. hides, 44c; No. 2 G. S. hides, 34c; No. 1 tallow, 4c; No. 2 tallow,

Horse Hides—\$2@2.50. Tallow—No. 1. 44c; No. 2, 34c.

Grease-White, 24c; yellow, 3c; brown, Bones-Dry. \$12@13 per ton.

Revenue and the State Tax Levy.

To the Editor of the Indianapolis Journal: It is charged in the Democratic State platform, frequently stated in the Indianspolis Sentinel, and re-echoed by the Democratic press throughout the State, in defense of the present Democratic tax law. that Governor Hovey recommended in his message to the General Assembly that the State levy be fixed at 25 cents, while the law so bitterly complained of only makes it 18 cents. Now, the fact is, Governor Hovey never advised anything of the kind. What he said was that, unless the system of raising revenue for State purposes 'from corporations and licenses' was adopted, the Legislature would "be compelled" to raise the State levy to 25 cents on the hundred dollars or borrow money to carry on the State government. What the Governor told the Legislature 18 as true as gospel, as a reference to the figures will disclose. The appropriations made by the last General Assembly aggregated \$2.-741,898, while the State revenue under the new tax law amounts to only \$2,249,654, leaving a deficit of \$492,244 to meet the expenses of the State. the State. And a further increase in the State levy of 6 cents will have to be made by the Legislature unless we do as Ohio. Missouri. Pennsylvania and numerous other States have done-increase the saloon liscense. Make a retail liquor-dealer's license \$500 and turn all of the amount over to the general fund of the State, except the \$100 which now goes to the school fund in such cases and the levy for State purposes could be reduced to 6 cents.

Some such policy as the one stated will have to be adopted, or else our State levy will inevitably have to go higher. The Republican party should not overlook this important question in making its platform at Fort Wayne. To simply denounce the Democratic tax law without pointing out to the people just how the Republican party proposes to relieve them from burdensome taxation, will not meet the situation that confronts the party. In his message Gov. Hovey favored raising State 'revenue from corporations and licenses," instead of inrecommendation by a very able argument. It is simply a base slander on Governor Hovey to say he advised increased taxation ou the real estate to meet the expenses of the State government. J. H. CLAYPOOL. CONNERSVILLE, Ind.

Peas as Sheep Food.

American Agriculturist. There is no better sheep food than peas. and as about as many peas can be grown on an acre, if mixed-so as to be half onts-as when grown alone, at I as the oats will. in ordinary years, hold the peas up so they can be cut with a mower, it is better to mix them in the proportion of two bushels of the small Canada field pea to one bushel of oats, choosing a kind of oats with pretty still straw. The best way to prepare the ground and sow the peas is to use good land. Corn stubble, if one has it, 18 best, but if sod ground is used have it fall-plowed, or plowed as early in spring as possible, and as soon as it is in good working order harrow lightly and sow two bushels of peas per acre. Immediately plow from four to six inches, so as to cover the peas at least four inches deep. Wait a week and sow one bushel per acre of oats, and give a thorough barrowing. This will leave the peas deep in the soil and the oats near the surface, just as they should be. It will not miure the peas, will kill all weeds that have started and will give each an even send-off to insure the largest yield. It is a good plan to roll the ground after the oats are harrowed, as it will leave it smoother for the harvesting. Soon after the peas get beyond the eating stage, and while still green enough so that the pods will dry down holding peas, cut the crop with a mower, and, when cured, so they will not mold, but not enough so as to lose the leaves, put them into cocks of 200 or 300 pounds, and after a week of good curing weather they can be simply aired out and put into mows; or they can be put into good-sized stacks without cocking, but the stacks should be topped, or capped, with any cheap hay or swamp grass, put on when not more than half cured; otherwise, they will wet half through, and much will be spoiled. This crop may be threshed with a machine, but for sheep-feeding it will be better to feed without, as the sheep will eat everything clean; and the farmer can feed according to his judgment, and the haulm will not be broken.

Prevention of Smut. Mirror and Farmer. It may not be out of place at this season to repeat the hot-water prevention of smut in oats, as given by the Ohio and other stations: Have two vessels, in one of which water is kept heated to about 120, and in the other to about 135°. Have a looselymade basket, with a wire or cloth cover, and considerably smaller than the vessel containing the hot water. Fill the basket with oats, fasten down the cover and set it in the vessel in w'ch the water is heated to 120. Let it stand ten minutes or more, shaking occasionally, so as to get the oats warmed up to this point, then take out and dip quickly into the water heated to 1350, shake or stir vigorously for five minutes, then remove and spread out to dry. Tests made at the experiment stations of Kansas and Indiana show that this treatment not only prevents smut, but increases the yield of grain to an amount considerably greater than that represented by the smutty heads.

An authority tells how to make the oatmeal bags which, used in the bath, give a velvety softness and whiteness to the skin. Take five pounds of oatmeal, ground tine, a half pound of pure Castile soap reduced to powder, and a pound of powdered Italian orris root. Cut a yard of thin cheesecloth into bags about four inches square, sewing them on the machine and taking care not to leave any untied threads where a break maylet the contents ooze out. Mix the soap oatmeal and orris root thoroughly

GOOD DAY TO COVER SHORTS

Pardridge and the Cudahys Took Occasion to Buy All They Wanted.

Price of May Wheat Once More Crowding Close Onto 80 Cents-Break in Corn Was Little or No Surprise to the Posted Ones.

TRADING AT CHICAGO.

Brisk Decline in All the Grains, as Well as in Provisions. CHICAGO, May 16.—The chief surprise to the wheat trade to-day was the narrowness of the market. The change in the weather map was a very radical one, and naturally caused lower prices, but the price this evening is only 4c under Saturday's final figures. Corn was relatively weaker than wheat, and is %c down. Pork is 5c off, but lard and ribs are about unchanged. Pardridge was about the best individual buyer of wheat-evidently covering shorts. Logan had liberal buying orders, but the crowd generally sold freely. both in the way of getting rid of long property and selling short. Wright, who has been a vigorous bear all along, seemed to be none the less so at the decline. Cudahy was reported to have bought 500,-000 buat 80% @81c. The final footing of the report making a decrease of 1,079,000 bushels was within the scope of the popular estimate and had little effect when posted. Duluth figures gave the market a little bulge and raised hopes of a larger deorease, and this caused a little easier feeling when the result was known. An offsetting influence was the signal-service prediction that another general rain, reaching as far as Chicago, will prevail over the West on Wednesday. The opening for July was % @ 40 lower than Saturday's closing, and the market declined 4sc more, rallied &c, receded 4c, ruled steady and

closed about 4c lower than Saturday There was not that selling pressure in corn that was expected with the improvement in the weather. A collapse was so generally predicted with these conditions The July price started on a break of about 132c from Saturday, lost another fraction, made a fair recovery at once and held in narrow limits the remainder of the day. For oats the weakness and decline in other grains had a depressing effect, and opening sales were at \$ @ 4 c decline. After prices receded a shade more a stronger feeling developed and prices advanced 4 @ sc. but receded slightly and closed with a

net loss of 14 @ 4c. Provisions opened lower on a heavy run of live hogs, and a further decline was precipitated by the commission men selling, and the weakness in wheat and corp. There was very little doing, and the closing was from steady to firm, at about the outside prices of the day.

Vessel-room was in good demand. Rates held steady at 2c for wheat and 40 for corn to Buffalo. and 14c for oats to Port Huron. Estimated receipts for to-morrow re: Wheat 133 cars: corn 370 cars: oats.

Figures Showing the Quantity in Sight the United States Saturday. NEW YORK, May 16,-The visible supply of grain on Saturday, May 14, as compiled by the New York Produce Exchange, was as follows: Wheat, 35,106,000 bu, a decrease of 1,085,000; corn, 4,318,000 bu, a decrease of 584,000; oats, 4,301,000 bu, an increase of 769,000; rye, 870,000 bu; barley, 453,000 bu, a decrease of 50,000.

The Foreign Grain Trade. LONDON, May 16.-The Mark Lane Express, in its weekly review of the British grain trade, says: There are large supplies of English wheat. The prices of fine samples are maintained. The values of the lower qualities show a decline of 6d. The prices of foreign wheats show an average decline of 6d. Corn is in good demand at an advance of 6d. Oats are dull. Barley. beans and peas, unchanged. At to-day's market English and foreign wheats further declined 6d, and met with poor sale at the decline. Flour was sluggish, and values were barely maintained. Corn and oats were 3d dearer. Barley and peas were steady. Beans and rye were flat.

TRADE IN GENERAL.

-THE

LDAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper Its primary object is to publish the news. and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trust-; worthy, printing the news, whatever it may be, without personal or partisand

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the demand and strong; common and light, \$3.50@4.70; packing and butchers, \$4.40@ | State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being 1,300. The market was steady to 10c higher | formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of

CHOICE READING MATTER

That satisfies the most exacting taste.

The same reasons that call for the im mediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Repub. lican doctrine.
